American Bee Journal

Index to Volume XLVII.

SUBJECTS

Adulteration of honey—358.
Advertising honey—206, 257, 309, 415, 546, 681.
Afterswarms—661.
Age of larvæ for queen-rearing—466.
Age when queen does best work—545.
Aggassiz Association—450.
Alexander feeder—266.
Alexander weak-colony plan—449.
Alfalfa honey in Ontario—651.
Alfalfa pollen—205.
Alsike clover—338, 490.
Alsike with red clover for bees—93.
American bee-keepers criticised—455.
American Breeders' Association—456.
Among the bees 6 weeks, a girl—112.
Amount of honey per acre—534.
Amount of sugar per pound of honey—755.
Answering questions—125, 126, 757.
Antennæ of bees—538.
Anti-swarming—414.
Ants in the apiary and hives—485, 696.
Apiarian exhibits and premiums at Fairs—616. 648, 712, 715, 722, 744, 753.
Apiarian Matters—624.
Apiarian progress—619.

APIARY OF—
Adkins, Geo. H.—226.
Anderson, N. P.—534.
Banker, Otto—206.
Caley, G. D.—681.
Coburn, John P.—350.
Darrow, Chas. M.—370.
Dysart, Samuel—350.
Gray, H. E.—106.
Hoffman, Fred—47.
Kennicott, E. E.—410.
Rigg, Thos. M.—730.
Salazar, M. A.—680.
Sauer, G. L.—430.
Shannon, Robert—278.
Stevens, John—46.

Apicultural progress—430.
Apis dorsata combs—75, 185.
Armful swarm of bees—86.
Aster honey, peculiar odor of—97.
Automobiles condemned—527.
Average buckwheat yield per acre—632.
Average honey crop—533.
Average yield per colony—593.

Back-yard bee-keeping—318.
Bacteria of the apiary—687.
"Badger" bee-keeper in Texas—374.
Baiting wild bees—469.
Balled queens—629, 646.
Banat bees—429.
Basswood growing—245.
Bears and bees—265.
Bee a Sabbath-breaker—166.
Bee-candy—205, 213.
Bee-cellar construction—286.
Bee-cellar heated with electric heater—191.
Bee-Cave—682.
Bee-culture vs. horticulture—109.
Bee-diseases, studying—75.
Bee-glue—437.
Bee-houses or hive-covers—594.
Bee-inspectors for Ontario—114
Bee-keeping a "queer calling"—92.
Bee-keeping for farm boys and girls—151.
Bee-keeping for women—30, 282.

BEE-KEEPING IN—
Arkansas—267.
Australia—743.
Bee-County, Texas—130.
Berkeley—243.
Bermuda—682.
California—280.
Carniola—484.
Cuba—232.
Danube—727.
East Africa—48.
Indian Territory—155, 196.
Lake Superior district—318.
Michigan—523.
Montana—339.
New Zealand—617.
North Carolina—723.
North Dakota—318.
Oklahoma—196.
Rio Grande—711.
South (first in)—129.
Southwest—747.
Virginia—758.
West Indies—719.

Bee-keepers, transient and permanent—71.
Bee-Man (poem)—615.
Bee-moth larvæ—286, 628.
Bee-paper—making it helpful to all—25.
Bee-paralysis—55, 111, 396, 466.
Bees and colors—533.
Bees and fruit—109, 237, 264.
Bees and grapes—14, 33, 85, 110, 216, 246.
Bees and honey for 1907—741.
Bees and horticulture—693.
Bees a nuisance, claims—566.
Bees as blossom-fertilizers—453, 454.
Bees at Jamestown Exposition—298.
Bees attack passengers—743.
Bees building up—565.
Bees by the pound—754.
Bees capture a new home—588.
Bees carrying water at night—600.
Bees deserting hive—756.
Bees exterminating bugs—533.
Bees hanging under brood-frames—660.
Bees in a funeral procession—49.
Bees increase church fund—711.
Bees in the ends of the earth—194.
Bee-smoker, use of—191.
Bee-smokers—30.
Bees moving eggs—535.
Bees race pigeons—712.
Bees robbing in the spring—355.
Bees starved in the cellar—589.
Bee-stories—49.
Bees tearing down foundation—196.
Bee-sting poison—28, 116, 372.
Bee-stings—16, 93, 587, 662.
Beeswax candles—569.
Beeswax cleaning—416.
Beeswax for floor-polish—71.
Beet vs. cane sugar—614.
Bee-veils—191, 263, 523, 535.
Beginners and the bee-papers—172.
Beginners in bee-keeping, first things for—8, 215, 280, 413, 691, 694.
Benton's search for new races of bees—584.
Best bees for comb honey—246.
Better-natured bees—284.
Bingham hive—132.

BIOGRAPHICAL—
Drake, F. H.—502.
Estabrook, A. H.—502.
Gates, Burton, N.—502.
Goodell, Chas. H.—502.
Muth-Rasmussen, Wm.—725.
Scholl, Mr. and Mrs. Louis H.—66, 747.
Smith, L. B.—70.
Pryal, Andrew D.—207.
York, Sallie Ward, 713.

Black bees from an "Italian" queen—593.
Black bees in Italian colony—757.
Black bees vs. Italians—105, 262, 174, 247, 371.
Black brood—633.
Black-Carniolans—126.
Black-stockinged little girl—172.
Bottom-boards—300.
Bottom-starters in sections—257, 369.
Box-hives, buying bees in—11.
Bravery of bee-keeping—728.
Bread and Honey (poem)—482.
Breeding a pure race of bees—145.
Breeding bees by selection—663, 718.
Breeding the best queens—518.
Breeding up for winter—698.
Brevity sometimes dangerous—389.
Brood-chamber in winter—549.
Brood-combs, replacing—696.
Brood foundation—396.
Brood-frames for extracting—697.
Brood in hives in winter—150.
Brushing bees at night—593.
Brushing bees with feather duster—241.
Building up colonies—376.
Building up colonies for the honey-flow—189.
Bulk comb honey production—257, 378, 682.
Bur-combs—260.
Buying and selling honey between bee-keepers—192.
Buying bees in box-hives—11.
Buying bees or making increase—245.

Caged queen, where to put—742.
Calcium chloride in the cellar—165.
California, a Modern Mecca—752.
California bee-ranches—615.
California honey-conditions—300.
Camping in California (Gathrights)—106.
Canadian Bee Journal sold—228.
Canadian postage rate—389, 430, 486.
Candied honey, getting out combs—54.
Candy feed for bees—756.
Capping on bottom-board—154.
Carbolic acid for swarms—627.
Careless bee-keepers—535.
Carnegie and the bee—126.
Carniolan bees—315, 662.
Carniolans or Italians?—571.
Carrying bees under difficulties—226.
Carrying up dark honey—185.
"Catty" molasses vs. foul-broody honey—451.
Caucasian bees—54, 399, 459, 483, 552, 683, 726.
Cellar-wintering of bees—115, 149, 154, 241, 746.
Cement hive-stands and bottoms—351, 432, 486.
Changing hives—726.
Cheap hives—597.
Chickens eating young ants—174.
Chickens in the apiary—15.
Child and "seated" swarm—712.
Children bee-keepers—631.
Chunk honey—358.
City street swarm—647.
Clarifying beeswax—306.
Cleaning sections of honey—95, 125, 151, 193, 195, 300, 337, 503.
Clipping queens—194, 261, 317, 358, 392, 393, 415, 453, 484, 524, 582, 595.
Closed-end frame—132.
Closed-end to Hoffman or Miller frames—550.
Cold experiment—228.
Colonies for the pasture—114.
Colorado Association's annual report—223.
Colors for painted hives—114.
Comb and extracted honey, ratio of—154.
Comb attached to sections—721.
Combined hive-cover and bee-feeder—72.
Comb-building—567.
Comb-foundation, home-made—756.
Comb-honey misrepresentations—94.
Comb honey production—12, 207, 377, 746.
Comb honey shipping—6.
Comb-levelers—286, 534.
Comb or extracted honey for beginners—351.
Comb or extracted honey, which?—170, 171.
Combs of granulated honey—215.
Commercial letter writers—504.
Commission law in Washington—628.
Control of increase—74, 175.

CONVENTION REPORTS—
Brantford, Ont.—149, 170, 189, 209, 233.
California—596.
Connecticut—487.
Fillmore Co., Minn—126.
Illinois—235, 742.
Kansas—210.
Michigan—91, 130.
Minnesota—46, 86.
National—283, 709.
Ontario—11, 30, 52, 721, 745.
Texas—591.
Worcester Co., Mass—87, 356, 522, 583.
Yorkville, Ill.—127.

Corn-tassel honey—29.
Cotton honey for winter stores—661.
Cotton-seed meal as pollen—192.
Cover-feeder——227.
"Cover Them Over" (poem)—445.
Cow with sweet tooth—628.
Crooked combs—523.
Cross bees—512.
Curious customs—714.

Dampness in hives—34.
Danzenbaker hive and system—377, 417, 595.
Dark bees the hardiest—589.
Dead-beat honey-buyers—627.
Dead bee with pollen—205.

DEATH NOTICES—
Burdett-Coutts, Baroness—93, 251.
Dzierzon, Dr. John—27.
Hammond, Luther—186.
Pryal, A. D.—752.
Stachelhausen, L.—658.
West, David J.—614.
York, Sallie Ward—713.

"De Bizzy Honey Bee"—683.
Dental wax—286.
Depending upon bees—714.
Deserting swarms—697.
Detecting adulterants in honey—389.
Detecting a honey-flow—588.
Deutscher Imkerbund—727.
Difference in bee-eggs—594.
Different prices for same kind of honey—487.
Digestion in bees—27.
Dining-room decoration of bees—282.
Disease carried by the queen—754.
Disease from comb foundation—245.
Distance bees gather nectar—393.
Distance bees go for nectar—91, 590.
Distance of apiary from the highway—508, 594.
Distance to breed pure queens—335, 514.
Distribution of honey—745.
Dividing colonies—628, 660.
Dividing colonies for buckwheat flow—359.
Divisible brood-chamber hive—394, 657.
Do bees carry eggs or larvæ?—592.
Do bees freeze to death?—108.
Does the queen consciously fertilize eggs?—565.
Doubled colonies—265.
Dovetailed hive—266.
Drifting or mixing of bees—370.
Driving out drones—570.

American Bee Journal

Drone-cell building—47.
Drone-comb—266.
Drone-comb from worker-foundation—449.
Drone-laying workers—235.
Drones, few—660.
Drones' flight—47.
Drones flying Jan. 5.—116.
Drones for service—32.
Drones from mismated queens—698.
Drones in winter—265.
Drones, too many—660.
Dummies for hives—95, 215.
Dummies in place of combs—34.
Ducks in the bee-yard—512.
Dwarf bees in old combs (?)—449.
Dysentery among bees—393.

Early bee-keeping—135.
Early drones—469.
Earth for cleaning fingers—651.
Early manipulation of bees—484.
Early rains for honey—214.
Educating consumers on honey—45.
Electric heat for bee-cellars—257, 335.
Elm honey from leaves—335.
"Emma" means honey-bees—587.
Empty combs, caring for—349.
Enduring bee-stings—174.
Enemies of bees, spiders, etc.—68.
Entrance controller, Weber's—646.
Entrance-guards and swarming—437.
Epitaph of bee-keeper—298.
"Erythema" from bee-stings—116.
Essentials in bee-keeping—724.
Eucalyptus honey—749.
Experience with bees—451, 691, 692.
Expert British sisters—503.
Extra combs of honey for spring—645.
Extracted and comb honey, relative values—237.
Extracted honey prices—598.
Extracted honey production—311, 451, 678, 745, 750.
Extracted honey ripening—750.
Extracted-combs—170, 678.
Extracting-comb, cleaning up wet—298.
Extracting from foul-broody combs—281.
Extracting honey—628.
Extractor, Mohr (Swiss)—582

Fairy bee-story—569.
Fall flowers in California—725.
Fall management of bees—52.
Farmer trade in honey—318.
Fastening foundation—437.
Fastening queen-cell in hive—613.
February care of bees—152.
Feeding and feeders—229, 260, 266, 330, 374, 411, 538, 684.
Feeding back honey—696.
Feeding back to finish sections—720.
Feeding bees for winter stores—655, 714, 741, 757.
Feeding bees in box-hives—174.
Feeding bees in fall—757.
Feeding bees in spring—16, 229, 538.
Feeding bees in tenement hive—154.
Feeding bees in winter—29, 73, 134, 215, 246.
Feeding bees outdoors—598.
Feeding bees through a sponge—746.
Feeding comb honey—215.
Feeding combs of syrup—191.
Feeding common syrup—175
Feeding honey-dew in spring—190.
Feeding sugar to starving bees—187.
Feeding thin syrup late—523, 655.
Fences and plain sections—598.
Fences carrying sections—352.
Fertilizing eggs? how does queen—658.
Finding queens—601.
First apiary in South—265.
Five-banders not hardy—598.
Flouring bees when uniting—709.
Flow of nectar?—does the bee start the—710.
Folding sections—263.
Food value of honey—689, 710.
Fool swarms—589.
Foreign field, notes—622.
Foreign honey in Canada—92.
Foretelling white clover yield—154.
"Forty Years Among the Bees"—377.
Foul brood—131, 238, 350, 354, 469, 485, 507, 647, 656, 677, 686, 693, 745, 746.
Foul brood inspection—262.
Foul Brood Laws—410, 433, 507.
Foul-brood legislation—549.
Foul brood, may have European—97.
Foul-brood spores, destroying—449.
Foul-brood treatment—54, 409, 693, 698.
Foul-broody colony defending itself—549.
Foul-broody honey—709.
Foundation, prevention of sagging—628.
Frame-spacers, metal—533.
Freakish things bees do—753.
Freas, (Mr.) in a buckwheat field—106.
Freight-rates on honey, bees, etc—85, 129, 168, 206, 213, 309, 307, 308, 315.
Full sheets of foundation—246.
Fumigating combs with formaldehyde—194.
Fumigating foul-broody combs with formaldehyde—47, 133.
Future for honey—25.

Gait of a bee—598.
Gasoline engines—87.
Gasoline engine for extracting—726.
Gasoline for foul-broody combs—698.
Gathering clover pollen—246.
Gathering honey, one bee—746.
Gathering only the sweet (poem)—27.
Getting most surplus honey—285.
Getting ready for the harvest—134, 332.
Giving sections—225.
Glucose and sugar syrup, storing and capping—114.
"Go-back" sections—660.
Golden bee!—743, 744.
Golden bees, hardiness of—628.
Golden Italians, management of—518, 524.
Good and poor seasons alternating—154.
Good reading matter, plea for—9.
Government aid to apiculture—354.
Government help for bee-keeping—13.
Grading extracted honey—679.
Granulated honey, liquefying—651.
Granulation of honey—74, 264.
Granulation of honey, prevention—310.
Grapes and bees—155.
Ground-moles in the apiary—514.
Gus Dittmer Company—744.

Handling bees during a honey-flow—624.
Handling bees for others—601.
Heat escaping from cluster—136.
Heat from colony below super—281.
Helpful hints in extensive bee-keeping—719.
Hershiser hive-stands and wax-press—88, 228, 432.
High prices for honey—242.
Historical—316, 570.
Hive-body feeding—374.
Hive-bottoms—586, 723.
Hive-covers—266, 396, 485.
Hive-entrances in outdoor wintering—300, 317, 399, 415.
Hive-lifting devices—49, 213.
Hive-making, at home and otherwise—28, 174, 176, 208, 304, 462.
Hive paraphernalia to start with—154.
Hives full of frames for winter—755.
Hives, height from ground—725.
Hives, home-made—128.
Hives in California—283.
Hives under snow—174, 757.
Hive-tool—378.
Hive-wall thickness—449.
Hoffman frames—504.
"Home Bee-Song" (poem)—599.
Home-made hives—128.
Home Song (poem)—350.
Honesty among bees—265.
Honey and noisy enthusiasm—298.
Honey and sugar for consumptives—353.
Honey and the "yellow press"—282.
Honey as a remedy—213.
Honey as food—105.
Honey-brine—715.
Honey-butter ruled out—145, 281.
Honey-cakes, "Freyhoff"—242.
Honey-cakes or honey-ginger bread—371.
Honey crop and prices for 1907—650, 749.
Honey crop of 1906—214.
Honey-dealing annoyances—335.
Honey-dealing, some early—145.
Honey-dew, loss from—216.
Honey-dew on pine-trees—98.
Honey exhibits—693.
Honey extractor, invention of—148.
Honey for curing bronchitis—176.
Honey for infants' food—335.
Honey for Texas producers—416.
Honey for the hands—34.
Honey from alfalfa in Ontario—53.
Honey from butter-milk—298.
Honey from cappings—113.
Honey from foul-broody combs—303.
Honey from oak-galls—174.
Honey-gathering test—627.
Honey getting more in evidence—724.
Honey granulation, prevention by heating—55.
"Honey-guides" for the bees—681.
Honey in infants' food—193.
Honey, its uses in Foods and Remedies—69.
Honey knife electrically heated—75.
Honey market for 1907—677.
Honey market quotations—277.
Honey on meats—112.
Honey paste for the hands—94.
